

My name is Jacki, and my background is in running water. I have extensive experience in outreach, and helping others understand the need to conserve our natural resources. I have lived all over the county learning how communities become stronger and more sustainable as they learn about their natural resources. I have degrees in Speech Communication, Environmental Science Technologies and Natural Resource Management. I am married to a retired 30-year veteran of the United States Army, and mom to two Miniature Schnauzers and a Redbone Coonhound Mix who thinks she's a Schnauzer! In my free time, I run a small pepper and berry farm, photograph nature, and play in the water!
