- Chairman Epler invited a motion to move to executive session to discuss a personnel matter.

Epler made a motion to go into executive session. Supervisor Berry seconded. Supervisors Cherek, Crowder, and Sanchez voted no and Supervisor Epler and Berry voted aye. Motion failed.

- Epler asked Board when and how they want to evaluate the District Manager. Supervisor Crowder asked if there was a normal period for when evaluations were conducted. Epler explained that typically evaluations were done at the beginning of the year.
- Epler stated that he considers it standard operating procedure and Jay Berry asked the Board why they are not doing it. Cherek stated that he thought it was important for the Board to conduct an annual evaluation, that it is important for all staff to get feedback good and bad.
- Kevin Wells indicated other staff received evaluations occurring in May prior to the budget to evaluate COLA's and other benefits. Wells further added there are mid-term evaluations and final evaluations conducted on a fiscal year. Jay Berry requested an updated copy of the policy handbook.

- Crowder expressed his support of Supervisor Cherek explaining it is important employees do not think we are laying the hammer down but to make sure they are doing the job we expect them to do and give them an opportunity to grow if there are deficiencies. Crowder further explained he voted no to the executive session because there was no expectation for District Manager Wells to be aware there was a potential evaluation until days ago and does not feel that is fair.
- Epler invited the Board to determine when it would be fair to conduct an evaluation. Wells said an evaluation should happen about every 6 months, so no one is blindsided, at least as applied to the other staff and that is now occurring in April.
- Cherek asked if an evaluation should happen in April to maintain consistency with the rest of the organization. Berry relayed that the Board could schedule in April but there is more going on than what one could call normal and he did not feel a normal year was occurring.
- Chairman Epler also said waiting until April is not good for him either as that time of year is challenging. Epler expressed his concern to try and relay the Board's obligations but feels it has gone unnoticed.
- Chairman Epler ended the discussion and moved on to the next agenda item.

- Wells then communicated to the Board that Staff Member Rex Lockman was resigning as of February 12, 2026.
- Scott Cherek identified that an interview committee should be created with consistent people participating in all interviews.
- Casey Epler suggested retaining a consultant, person, or organization to do prior screening to filter out unqualified candidates to not waste time.
- Jason Crowder shared that he thought this was Manager's role and they should filter out applications. Kevin Wells explained that historically they had a committee to weed out applications and then they would decide the top candidates to schedule.
- Cherek relayed the importance of prioritizing positions to be filled and creating a timeline for each, specifically referencing Kathy Cooney's position due to its complexity.
- K Jay Berry expressed the critical need for a timeline and further expressed support for a recruiter and encouraged a vote.
- Crowder shared that he feels uncomfortable talking about new employees long before the current employees have formally announced their retirement, treating them as if they are easily replaceable.
- Kathy Cooney noted her retirement is in June 2026.

## Page 5 – LCCD Board Meeting Minutes – January 7, 2026

- Cherek identified Kathy Cooney's role and complimented her on a tremendous job and was concerned she would be difficult to replace. With that, Cherek proposed we consider an outside firm to do monthly P&Ls with the new employee taking on a less extensive role. Cherek reminded the Board that the auditors recommended the district create more checks and balances. Berry agreed with Supervisor Cherek that outsourcing some responsibilities may be effective.
- Epler replied that the CFO is entirely capable of completing her duties until she retires. Cooney relayed that the job has changed significantly compared to previous years when the organization had a much smaller budget.
- Cherek identified the additional need to silo the grant accounting based on the auditor's recommendations. The new grants have additional responsibilities with more complication and so he believes more expertise is required post Cooney's retirement. Kevin Wells shared those concerns and stated that the district has been informed multiple times of the need for additional checks and balances what has now become a \$3,000,000 budget.
- Cooney relayed that she suggested training for her replacement for one quarter or 3 months. Chairman Epler said he was against outsourcing and hoped that we could hire an employee with experience.

Cherek made a motion to have a comprehensive job description for financial coordinator at next board meeting with intent to direct posing job at that time. Seconded by Ann Sanchez. The motion passed unanimously.

Manager Wells asked for guidance on the remaining three job vacancies and approval for salaries. He indicated he would not advertise without approval from Board and asked for approval on job descriptions, explaining they are just a template.

- Jason Crowder asked about approval for salaries and the salary ranges. Wells explained that he looked at other similar jobs and used that as a reference point and then "shot gunned" it a little.
- Crowder asked about budgeting for positions. Manager Wells explained that all positions but the new proposed position (Marketing & Outreach Coord.) are budgeted for.

Cherek made a motion to approve the Wildlife and Resource Specialist job vacancy notices and move forward with those positions so long as budget parameters are followed. Jason Crowder seconded. The motion passed unanimously.
