

*Every 4 years the
Laramie County Conservation District
asks voters to continue a 1/2 mill levy
for natural resources conservation.*

The 1/2 mill levy funds about 76% of operating expenses for the District's natural resource program areas. The mill levy also provides base funding so the District can apply for grants. Grant funding brings additional natural resource funding to Laramie County.

\$1.00 per month...

That's all it takes to continue supporting the important efforts of YOUR Conservation District.
