

Every 4 years the Laramie County Conservation District asks voters to continue a 1/2 mill levy for natural resources conservation.

The 1/2 mill levy funds about 71% of operating expenses for the District's natural resource program areas.

The mill levy also provides base funding so the District can apply for grants. Grant funding brings additional natural resource funding to Laramie County.

\$1.19 per month...

That's all it takes to continue supporting the important efforts of YOUR Conservation District.
