

SEPTEMBER 26TH 2020

QUICK STEPS TO STRUCTURE PRUNING

This pruning class will enable you to mediate long term structure issues for all your trees. Structure problems may include stunted growth, disease, and tree mortality due to failure. Proper pruning will also maximize tree growth through improved nutrient uptake.

Please RSVP by 9/23/2020 to ensure enough space for the class and to see if we need to have a 2nd class. (limit 20 per class) When you RSVP be sure to give your phone number.

Meet at East entrance into the Library. We will be practicing social distancing during the class; masks will be required when entering the building.

There will be a drawing for a hand pruning shears to one of our lucky class participants in each class.

Laramie County Conservation District

**Laramie County
Library**

1st Class 9:00-11:30

2nd Class 2:00-4:30
